

Become **Business Design Analyst (All Gender)**
Our Chief Information Office (CIO) Team in Hamburg is waiting for you.

We believe your interests to be equally important as the ones of your team. This is why you can achieve even more with us. Sounds good? Then you are just right with us.

Our promise

We help people move forward every day. We're encouraging you to go your own way. Because we're offering you a company culture where everyone is met openly and at eye level. You'll meet a variety of different people, living our values all day every day. We're inviting you to a range of joint experiences within our team as well as your personal spotlight moment.

Your Part:

CIO Germany is driving our technology agenda, developing and enhancing innovative products for our customers on a daily basis. We are the backbone of all IT Project Delivery and Run services for Barclaycard Germany. With an international and diverse team over 80 colleagues, we are one of the largest departments in Germany and support Barclaycard's business strategy to accelerate earnings growth and drive high customer advocacy.

- Act as intermediary between business and IT to ensure a suitable technical solution
- Responsible to be the primary custodian of business requirements and user stories on end-to-end IT projects
- Provide objective and analytical insights as the trusted advisor to business, demonstrating sound understanding of the business/ domain area and in-depth knowledge of IT system landscape
- Interact with the global IT service units to ensure end-to-end project delivery on high standards
- Ensure all governance, risk management and dependencies, controls and compliance requirements are considered during development of requirements and designs
- First project management experience

What you're made of:

- University degree and 2-3 years of working experience (e.g. IT management, IT Consulting) or more than 7+ years relevant business experience
- Experience in IT project work (Infrastructure, Application development, IT-Management)
- Strong communications, presentation and moderation skills and ability to place self in the shoes of the intended audience
- Good knowledge of requirement analysis and process design
- Capabilities to deep dive and understand complex IT System setups
- Ability to engineer and map process flows with IT systems landscape (experience with UML, BPMN is an advantage).
- User Knowledge of Sharepoint, Confluence, Jira, MS Office Suite
- Being technical savvy will be of an advantage to this role
- Hands on mentality and persistency on getting things done
- Ability to adapt to a fast moving, ambiguous environment
- High Focus on detail and accuracy
- Intercultural understanding
- Fluency in spoken and written English, German language is an advantage

About us

We're not an average bank. We're Barclaycard: modern, diverse and digitally minded. As one of the country's leading credit institutions, we have over 700 employees based in Hamburg. For the past 25 years, we have been offering our customers flexible payment options and helpful financing solutions that have resulted in over 1 million customers.
