

Become **Data Modeller (All Gender)** Our Chief Data Office Team in Hamburg is waiting for you.

We believe your interests to be equally important as the ones of your team. This is why you can achieve even more with us. Sounds good? Then you are just right with us.

Our promise

We help people move forward every day. We encourage you to develop your own ideas and offer an open company culture where everyone respects each other irrespective of hierarchy. You'll meet a variety of different people, living our values all day every day to do the best we can with integrity and excellence for our customers and stakeholders. Join our team for a diverse working experience and bring your personal contribution to our brand.

Your Part

- Provide business consultancy on data model design, holding an expert role about the structure and principles of data design, flows, storage, access and best practices.
- Ensure the end-to-end delivery for all data model aspects including continuous change, from requirements until live proving, complies with the data principles and standards, while providing the best use of data for Germany
- Understand current data usage, structure and demand and design solutions for reengineering it on the new Hadoop based platform.
- Act as an advisor and coach/mentor to less experienced Data users in other business functions, including Operations, Finance, Commercial and Compliance.
- Data Warehouse experience (Hadoop/Hue/Hive/Impala based platform preferred).
- High degree of self-organization and ability to pursue progress in adverse conditions, by guiding, influencing and convincing others, in particular colleagues in other functions who use or should use Data

What you're made of

- Deep subject matter expertise and an analytical mind-set, paired with high desire to learn and develop, and effectively interacting with stakeholders.
- In-depth experience working as a senior expert with Data Modelling/DWH (ideally within banking industry)
- Strong experience with data model design (data vault preferred) and layer concepts.
- Fluent English (ideally fluent German as well)
- Data Warehouse experience (Hadoop/Hue/Hive/Impala based platform preferred).
- Solution oriented, flexible and hands-on attitude to cover for a wide variety of tasks in a small team.
- Highly motivated, energetic, extremely personable, comfortable working closely with executive management
- Exceptional resilience and effectively dealing with performance issues and slow change processes

About us

We're not an average bank. We're Barclaycard: modern, diverse and digitally minded. As one of the country's leading credit institutions, we have over 700 employees based in Hamburg. For the past 25 years, we have been offering our customers flexible payment options and helpful financing solutions that have resulted in over 1 million customers.
